## Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Use practical resources – Use toys or edible items to represent the times tables.

Play games – You can play games such as Times Table Rockstars and games on the White Rose One Minute Maths app for the division facts you need to learn.
