

NumBots Launch Lesson

RUSTY'S

KEEP OUT

Would you like to watch that again?

Yes

No

What can you
remember from
that story?

I'm BettyBot.

I'm KittyBot.

I'm NinjaBot.

Remember my friends?

Can you think of other words for 'upgrade'?

What do you
think I mean?

Shall we take a
closer look at **NUMBOTS** ?

RUST 1

How many cogs in total?

?

At the end of the level you will Earn 2 or 3 stars see how many to unlock the stars you earn. level.

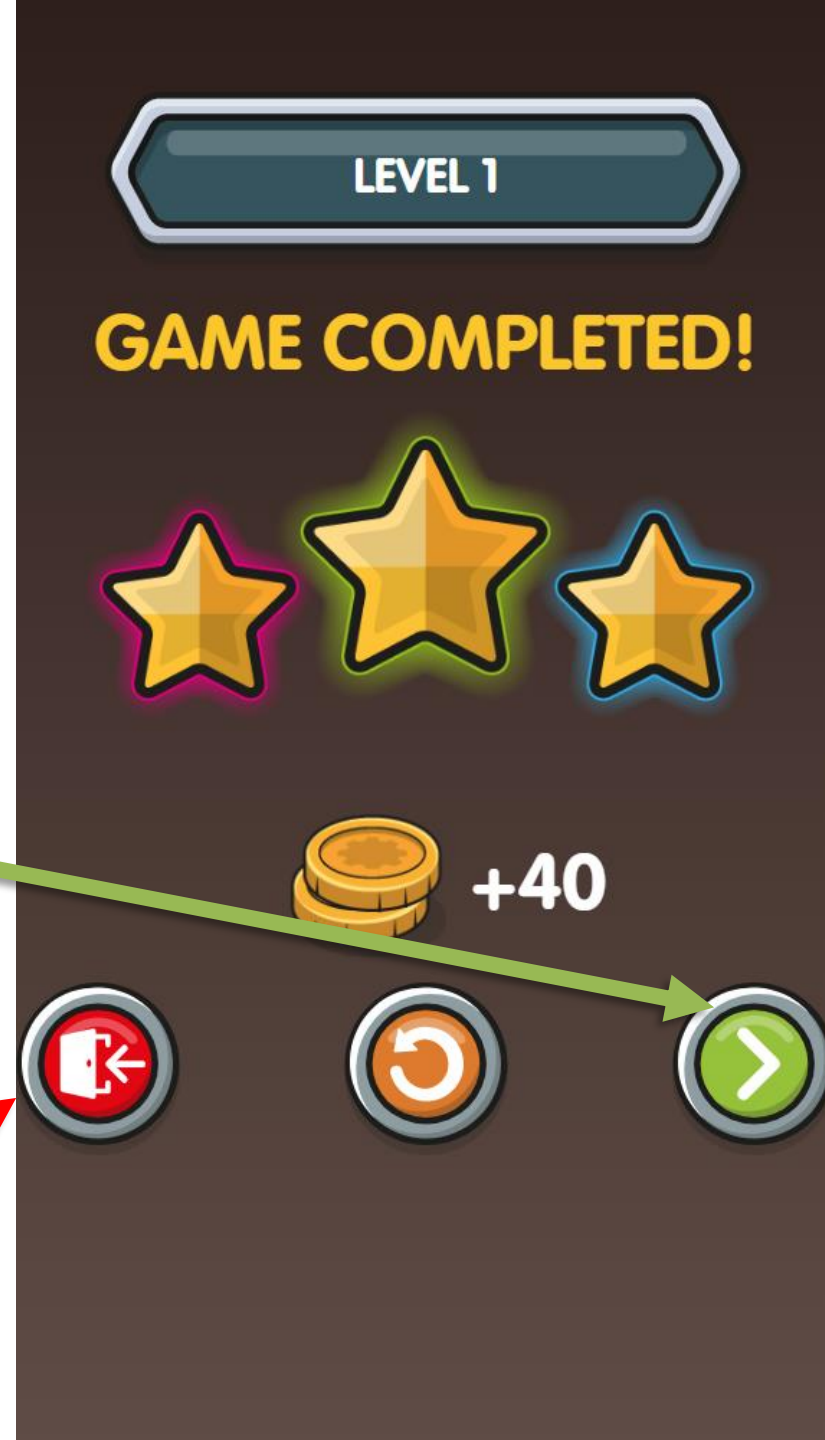

Have another go.

GAME COMPLETED!

What do you think this button does?

[Menu]

RUST

Why is level 3 not unlocked?

IRON

[Menu]

Iron

	2	3	4	5
	7	8	9	10
	12	13	14	15

The image shows a 3x5 grid of green buttons, each with a white number and three yellow stars below it. The buttons are numbered 2 through 15, with the first column being empty. The buttons for numbers 4, 9, 12, and 15 are highlighted with a pink border. The entire grid is connected to a yellow-bordered card on the left that displays a faded robot character.

In every Stage, you earn parts to upgrade Rusty.

Iron

Tin

Copper

Here is
Rusty
upgrading at
the end of
each Stage.

What are we learning?

ADDING & SUBTRACTING

The first panel shows a number 10 in a blue circle with two arrows: one pointing right labeled '3 more' and one pointing left labeled '3 less'. The second panel shows a number line from 10 to 16 with a green dashed arrow from 10 to 15 and a red dashed arrow from 15 to 12, with a '+10' button above. The third panel shows ten blocks (five orange and five blue) with a '+' sign between them. The fourth panel shows the equation $10 + 4 - 1 = ?$.

NUMBER BONDS

The first panel shows a number bond with 10 at the top and two question marks at the bottom. The second panel shows a number bond with a question mark at the top and three 'part' circles at the bottom, one containing a small number of blocks. The third panel shows a bar model with an orange bar on top labeled '?' and ten blue blocks below labeled '10'. The fourth panel shows a number line with seven hexagonal markers, five yellow and two orange, with the equation $? + 2 = 7$ above.

COUNTING

The first panel shows a grid of ten hexagonal markers, some grey and some yellow. The second panel shows a number line from 0 to 9 with red dashed arrows from 3 to 4 and 4 to 5, and '-3' buttons above. The third panel shows ten vertical bars, five on the left and five on the right, with a '+' sign between them. The fourth panel shows a 10x10 grid of numbers from 1 to 100.

									0
1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Why are we learning these things?

**Then the
even more
fun stuff!**
